

Ravuru Sai Kishore

MERN Stack Developer

ravurusaikishore@gmail.com | 9014894984 | Vizianagaram, Andhra Pradesh, India

[LinkedIn](#) | [GitHub](#)

OBJECTIVE

Enthusiastic MERN Stack Developer eager to build dynamic, responsive web applications using MongoDB, Express.js, React, and Node.js. Passionate about writing clean, maintainable code and optimizing performance. Strong problem-solving skills with a solid grasp of Data Structures and Algorithms (DSA), enabling efficient and scalable solutions. Adaptable and collaborative, with a commitment to continuous learning and staying updated with the latest technologies in web development.

EDUCATION

B.Tech in Computer Science Engineering

Rajiv Gandhi University of Knowledge Technologies, Andhra Pradesh

CGPA: 8.8+

Expected: April 2026

Intermediate Education

Rajiv Gandhi University of Knowledge Technologies, Andhra Pradesh

CGPA: 9.5+

Completed: April 2022

WORK EXPERIENCE

Full Stack Developer Intern | Shiksha Sathi

Remote | 2025

- Designed and developed full-stack web applications with a focus on the admin panel.
- Implemented payment tracking features including mentor earnings, user payments, and platform commission breakdowns.
- Contributed to user and mentor data management, ensuring accurate display and updates of key information.
- Strengthened skills in frontend design, backend development, and application deployment.

Team Member – Hackathon (Techniverse 2023)

RGUKT Srikakulam | 2023

- Collaborated with developers, designers, and strategists in a 48-hour hackathon to build an innovative prototype.
- Contributed to coding, problem-solving, and user-centric design using cutting-edge technologies.
- Delivered a functional solution by leveraging teamwork, adaptability, and agile development under time constraints.

PROJECTS

Web Application Vulnerability Scanner – Quailzeal

- Built a full-stack vulnerability scanning platform supporting free and advanced scan modes with real-time progress tracking via Server-Sent Events (SSE).
- Implemented JWT-based authentication, session management, and robust role-based access control (Admin, User, Read-Only).
- Integrated Burp Suite APIs for in-depth vulnerability detection and built a dynamic PDF report generator using Puppeteer.
- Managed persistent scan sessions in MongoDB with support for concurrent sessions and session expiration handling.

Tech Stack: React, Tailwind CSS, Node.js, Express.js, MongoDB, Puppeteer, SSE, Burp Suite, Zap

Food Delivery App

- Developed a full-stack food delivery application using the MERN stack with robust user authentication and complete order management.
- Built an admin panel for menu management, order tracking, and user control.
- Integrated Stripe for secure payment processing.

Tech Stack: MongoDB, Express.js, React, Node.js, Stripe

Prescripto – Doctor Appointment Booking Platform

- Built a healthcare platform enabling patients to book appointments, make payments (Cash/Razorpay), and interact with doctors.
- Developed role-based portals for Admin, Doctor, and Patient with full admin control for doctor and appointment management.
- Integrated Tidio AI for FAQ handling to improve user experience.

Tech Stack: React, Node.js, Express.js, MongoDB, Razorpay, Tidio AI

SKILLS

Languages: C, Java (Proficient), JavaScript

Full Stack: HTML, CSS, JavaScript, Node.js, React.js, Express.js

Databases: MongoDB, SQL

Tools: GitHub, VS Code, Postman, Render, Vercel

Currently Learning: React Native, Docker

Soft Skills: Teamwork, Communication, Problem-Solving, Collaboration

CERTIFICATIONS

- | | |
|--|------------|
| • React Course Completion – EdX | April 2024 |
| • Node.js Course Completion – EdX | June 2024 |
| • Full Stack Development Internship Certificate – ShikshaSathi | May 2025 |
| • Vulnerability Scan Application Internship Report – QualiZeal | July 2025 |
