Hiring Manager

Google Hyderabad

Telangana, India

Dear Hiring Manager,

I am excited to apply for the Web Developer position at Google Hyderabad. With a strong academic foundation in computer science and ongoing hands-on training as a MERN Developer with Scale Orange, I am eager to bring my skills to an innovative team at Google, where I can contribute meaningfully while growing as a professional.

Through my training at Scale Orange, I am deepening my expertise in full-stack development, focusing on creating efficient, scalable web applications using MongoDB, Express.js, React, and Node.js. This experience has allowed me to work in a fast-paced, project-based environment and strengthen my problem-solving and team collaboration skills. Additionally, I have developed a solid foundation in front-end and back-end technologies, including HTML, CSS, and JavaScript, and have expanded my proficiency with SQL, Java, and Python.

In previous projects, including a food delivery platform and an e-commerce website, I applied both front-end and back-end technologies to create user-friendly and scalable applications. These projects, combined with my training at Scale Orange, have equipped me with the practical skills and adaptability needed to thrive in Google's dynamic environment.

I am particularly excited about the opportunity to contribute to your team, tackle challenging problems, and develop creative solutions. Google's commitment to innovation and problem-solving inspires me, and I would be grateful for the chance to discuss how my background aligns with your goals.

Thank you for considering my application. I look forward to the opportunity to further discuss this exciting role.

Sincerely,

Ravuru Sai Kishore
